EDUCATION

North Seattle College

Seattle, WA

Application Development Bachelor of Applied Science (BAS)

Expected Fall 2026

Relevant Coursework: Component Software (Object-Oriented Programming), Linux, Management in Software Development, Database, Microeconomics, Calculus.

TECHNICAL SKILLS

Programming Languages: Java, C#, PowerShell, JavaScript, Python, HTML, CSS, SQL, MySQL

Frameworks & Libraries: React.js, .NET Core, NestJS, TypeORM

Cloud & Platforms: Azure Blob Storage, Azure Event Grid, Azure Foundry

Operating Systems: Windows, Linux

WORK EXPERIENCE

Microsoft

Redmond, WA

Explore Intern PM + SWE (M365 Substrate OSSKU)

June 2025 — September 2025

Collaborated with a team of three to deliver an AI-powered Job Log Analysis System during a 12-week Product Management and Software Engineering internship at Microsoft M365 Core (Substrate OSSKU).

- Reduced diagnostics time by **70%**, improved platform reliability, and accelerated firmware rollout while lowering incident volume.
- Developed a backend system for automated log ingestion using PowerShell, XML, and C# (.NET Core), integrating Azure Blob Storage and SQL Server for LLM-based analysis.
- Built and deployed an AI Analysis Service to handle UI-triggered LLM requests, including background processing, caching, and concurrency control.
- Applied chunking and Retrieval-Augmented Generation (RAG) techniques to enhance LLM performance in analyzing complex system logs.

North Seattle College

Seattle, WA

Student Media Center Navigator (Student Media Center)

January 2023 — Present

Supported students with digital art projects and inquiries, leveraging strong communication and technical skills to guide their creative processes.

- Managed equipment inventory and tracking through Seattle Colleges' campus-wide database for more than 2,000 students.
- Contributed to graphic design projects using Adobe Suite to strengthen marketing strategies
- Developed personal projects to enhance workflows, utilizing Microsoft, Notion, and JavaScript to implement new functionalities, including kiosk functionality.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

North Seattle College

Seattle, WA

Chair of Communication (Student Leadership)

September 2023 — May 2025

- Led over 10 marketing campaigns, enhancing event visibility and student participation.
- Held strategic meetings with the school president and district representatives to propose improvements to the academic environment, including enhancements to the Food Pantry.

TECHNICAL PROJECTS

Licton Springs Reviews Admin Dashboard

- **Led a team of five** to develop an admin dashboard for a visual and literary art platform at North Seattle College, driving project coordination and delivery.
- **Engineered a scalable NestJS backend** with PostgreSQL and TypeORM, implementing secure authentication using JWT, Passport, and bcrypt.

[Houreum Time Bank](#)

- Developed a **mobile-first community skill-sharing application** using **React Native** and **Expo**, implementing a **time-based economy** where users earn and spend time credits.
- Built features including **task marketplace**, **user profiles**, **task management**, **secure time reporting**, **push notifications**, and **community safety tools**, with backend and storage handled via **Supabase (PostgreSQL, Auth, Storage, Edge Functions)**.
