EDUCATION

North Seattle College

Seattle, WA

Application Development Bachelor of Applied Science (BAS)

Expected Fall 2026

Relevant Coursework: Component Software (Object-Oriented Programming), Linux, Management in Software Development, Database, Microeconomics, Calculus.

Certifications: [AWS Academy Graduate - Cloud Developing - Training Badge](#), [AWS Academy Graduate - Cloud Architecting - Training Badge](#), [AWS Academy Graduate - Machine Learning Foundations - Training Badge](#).

TECHNICAL SKILLS

Programming Languages: Java, C#, PowerShell, JavaScript, Python, HTML, CSS, SQL, MySQL, TypeScript

Frameworks & Libraries: React.js, .NET Core, NestJS, TypeORM, Next.js, TailWind CSS, Express, Node.js, Socket.io

Cloud & Platforms: Azure Blob Storage, Azure Event Grid, Azure Foundry, AWS S3

Operating Systems: Windows, Linux

WORK EXPERIENCE

Microsoft

Redmond, WA

Explore Intern PM + SWE (M365 Substrate OSSKU)

June 2025 — September 2025

Collaborated with a team of three to deliver an AI-powered Job Log Analysis System during a 12-week Product Management and Software Engineering internship at Microsoft M365 Core (Substrate OSSKU).

- Reduced diagnostics time by **70%**, improved platform reliability, and accelerated firmware rollout while lowering incident volume.
- Developed a backend system for automated log ingestion using **PowerShell, XML, and C# (.NET Core)**, integrating **Azure Blob Storage** and **SQL Server** for LLM-based analysis.
- Built and deployed an AI Analysis Service to handle UI-triggered LLM requests, including background processing, caching, and concurrency control.
- Applied chunking and **Retrieval-Augmented Generation (RAG)** techniques to enhance LLM performance in analyzing complex system logs.

North Seattle College

Seattle, WA

Student Media Center Navigator (Student Media Center)

January 2023 — Present

Supported students with digital art projects and inquiries, leveraging strong communication and technical skills to guide their creative processes.

- Managed equipment inventory and tracking through Seattle Colleges' campus-wide database for more than 2,000 students.
- Contributed to graphic design projects using Adobe Suite to strengthen marketing strategies
- Developed personal projects to enhance workflows, utilizing Microsoft, Notion, and JavaScript to implement new functionalities, including kiosk functionality.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

North Seattle College

Seattle, WA

Chair of Communication (Student Leadership)

September 2023 — May 2025

- Led over 8 marketing campaigns, enhancing event visibility and student participation.
- Held strategic meetings with the school president and district representatives to propose improvements to the academic environment, including enhancements to the Food Pantry.

TECHNICAL PROJECTS

Vaux - A real-time music listening room

- Built a **real-time synchronized music platform** using **Socket.io** enabling shared YouTube queues, live voting, and chat across web and CLI clients.
- Designed a host-controlled playback system with **deterministic state synchronization**, ensuring consistent audio timing across distributed users.
- Integrated a **Python (Textual) CLI client** with an MPV-based background audio engine for low-latency, server-driven media playback.
